

ATS (Aviation Technical Services) is focused on making the MRO process better through reducing span times, increasing efficiency, improving airline and MRO operational performance, and lowering overall costs by providing competitive and innovative solutions.

Through installation of the ATS CargoTek® solution, unscheduled floor panel removals are reduced. Airlines experience system-wide benefits resulting in greater operational efficiency and performance.

CUSTOMER BENEFITS

- Reduces cargo related AOG and Minimum Equipment List (MEL) events resulting from unexpected discovery of scratches, dents and cracks on original equipment cargo bay floors
- Avoidance of expensive, time-consuming and unexpected repairs
- Reduces incidental damage to cargo bay floors
- Installs during aircraft overnights or maintenance visits
- Sections can be individually replaced or removed for access to original floor
- Complete CargoTek floor protection solution includes liners for lower, mid, and upper floor panels

ATA CHAPTER

Equipment/Furnishings 25-52

TECHNICAL SPECIFICATIONS

- FAA Certified under STC #ST04081NY, EASA Certified under STC #10069619, PMA Obtained
- Made from impact-resistant Kydex® T
- Precision tooled to completely cover pit floor while accommodating all hold-down locations and openings.
- UL Std 94 V-0 & 5V fire rating, meeting CFR 25.855 requirements

AIRCRAFT APPLICATION

Currently available for:

Airbus: A319-100, A320-200, A320neo, A321-200, A321neo

Option for:

Airbus: A321neo w/ Extra Fuel Tanks, A321LR, and A321XLR
